Religious Ed.

Creation and Covenant

Explore the Creation accounts in Genesis and the Prologue of St John's Gospel to uncover deep truths about God's generosity and our purpose for relationship. Reflect on how original sin introduced brokenness into the world, and draw on the Nicene Creed and Pope Francis' Laudato Si' to discover how faith and science work together to care for Creation.

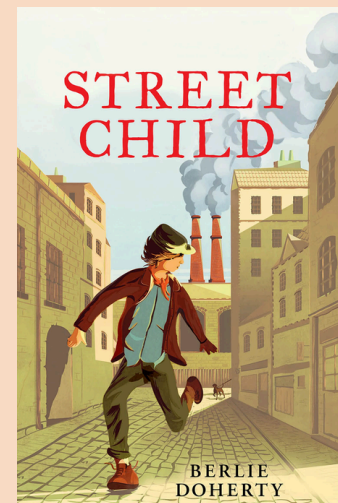

History

The Victorians

Discover when the Victorian era took place and how the Industrial Revolution and British Empire reshaped daily life. Explore the harsh reality for working children, trace how schooling changed compared to today, and study key inventors alongside Victorian crimes and punishments.

Class Text

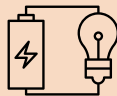

Science

Electricity – Circuit and Components

Explore common electrical appliances and the construction and troubleshooting of simple series circuits using cells, wires, bulbs, buzzers and various switches. IDiscuss key vocabulary, how to determine if a circuit is complete and the differences between insulators and conductors, with an emphasis on metals as excellent conductors.

PSHCE

Family & Relationships

Explore the Zones of Regulation to recognize emotions, understand class charters, and live out Catholic Social Teaching. Pupils will reflect on being uniquely created by God while navigating loss, change, and growing into adulthood, alongside exploring respectful relationships, challenging stereotypes, and cultivating gratitude.

Music

Whatcha Rhythms

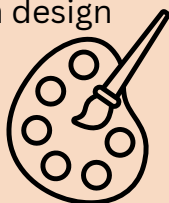

Explore the vibrant sounds, songs, and rhythms of the jungle while discovering how to use body percussion to recreate complex beats. Pupils will develop rhythm and coordination through collaborative musical storytelling inspired by the natural world.

Art

William Morris

Examine and research the work of William Morris. Exploring his works and understanding his different techniques. Children will be honing skills that will lead to them creating their own polyblock print of their own design inspired by Morris' work.

French

Revision & Numbers to 100

Revise essential vocabulary covered in Year 5 to strengthen foundational language skills before mastering numbers up to 100. Pupils will build confidence in counting, speaking, and listening through interactive practice with key words and numbers.

Physical Ed.

Gymnastics & Badminton

Identify and practise core gymnastic shapes, balances, and symmetry to construct fluid movement sequences. In badminton, pupils will develop game tactics, lead by accurately explaining rules, and collaborate effectively as a team through clear planning and communication.

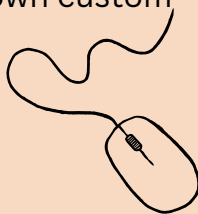

Computing

Computer Networks & HTML

Discover how web pages are built by learning the fundamentals of HTML tags and web structure. Pupils will use interactive tools like 'X-Ray Goggles' and the Glitch HTML editor to tinker with, remix, and code their very own custom web pages.
